RAINWOW

A new confidence

After years in which neutrality has shaped the way we think about spaces, colour is reclaiming its place. Rainwow expresses a new confidence in bringing colour into design as a source of identity, optimism and emotion, balanced by the calm, well-being and enduring appeal of natural materials.

Una nueva confianza

Después de años en los que la neutralidad ha definido nuestra forma de entender los espacios, el color recupera su lugar. Rainwow expresa una nueva confianza para incorporarlo al diseño como fuente de identidad, optimismo y emoción, en equilibrio con la calma, el bienestar y la permanencia de los materiales naturales.

Une nouvelle confiance

Après des années où la neutralité a façonné notre manière de concevoir les espaces, la couleur retrouve sa place. Rainwow exprime une nouvelle confiance dans l'intégration de la couleur au design, comme source d'identité, d'optimisme et d'émotion, en équilibre avec le calme, le bien-être et la pérennité des matériaux naturels.

Ein neues Selbstvertrauen

Nach Jahren, in denen Neutralität unsere Vorstellung von Räumen geprägt hat, findet Farbe wieder ihren Platz. Rainwow steht für ein neues Selbstvertrauen, Farbe als Quelle von Identität, Optimismus und Emotion in die Gestaltung zu integrieren – im Einklang mit Ruhe, Wohlbefinden und der Beständigkeit natürlicher Materialien.

Spaces
to remember

At Cersaie 2026, APE Grupo invites us to look at colour from a different perspective: not merely as a decorative element or as a departure from natural materials, but as a language capable of coexisting with them, bringing identity and transforming the way we experience a space.

Rainwow explores this meeting point between permanence and personality, between serenity and the unexpected. Like a rainbow that briefly changes our perception of a familiar landscape, colour introduces accents, contrasts and nuances that catch the eye and turn a pleasant space into a memorable one.

Espacios
para recordar

En Cersaie 2026, APE Grupo propone mirar el color desde una perspectiva diferente: no como un recurso meramente decorativo ni como una ruptura con los materiales naturales, sino como un lenguaje capaz de convivir con ellos, aportar identidad y transformar la manera en que experimentamos un espacio.

Rainwow explora ese punto de encuentro entre permanencia y personalidad, entre lo sereno y lo inesperado. Como un arcoiris que altera por un instante la percepción de un paisaje conocido, el color introduce acentos, contrastes y matices que despiertan la mirada y convierten un espacio agradable en un lugar memorable.

Des espaces
dont on se souvient

À Cersaie 2026, APE Grupo propose de porter un regard différent sur la couleur : non pas comme une simple ressource décorative ni comme une rupture avec les matériaux naturels, mais comme un langage capable de cohabiter avec eux, d’apporter une identité et de transformer notre manière de vivre un espace.

Rainwow explore ce point de rencontre entre permanence et personnalité, entre sérénité et inattendu. À l’image d’un arc-en-ciel qui modifie un instant notre perception d’un paysage familier, la couleur introduit des accents, des contrastes et des nuances qui éveillent le regard et transforment un espace agréable en un lieu mémorable.

Räume,
die in Erinnerung bleiben

Auf der Cersaie 2026 lädt APE Grupo dazu ein, Farbe aus einer neuen Perspektive zu betrachten: nicht nur als dekoratives Element oder als Bruch mit natürlichen Materialien, sondern als eine Sprache, die mit ihnen harmonieren, Identität schaffen und die Art und Weise verändern kann, wie wir einen Raum erleben.

Rainwow erkundet diesen Begegnungspunkt zwischen Beständigkeit und Persönlichkeit, zwischen Ruhe und Unerwartetem. Wie ein Regenbogen, der für einen Moment unsere Wahrnehmung einer vertrauten Landschaft verändert, setzt Farbe Akzente, schafft Kontraste und Nuancen, die den Blick wecken und einen angenehmen Raum zu einem unvergesslichen Ort machen.

Colour without compromise

Some spaces choose to express themselves freely. Colour engages with materials, overlaps with them and naturally takes centre stage, creating vibrant atmospheres where designing also means daring to be bold.

Color sin complejos

Hay espacios que eligen expresarse con libertad. El color dialoga con la materia, se superpone a ella y gana presencia con naturalidad, creando atmósferas vitales donde diseñar también significa atreverse.

La couleur sans complexes

Certains espaces choisissent de s'exprimer librement. La couleur dialogue avec la matière, se superpose à elle et s'affirme naturellement, créant des atmosphères pleines de vitalité où concevoir signifie aussi oser.

Farbe ohne Zurückhaltung

Manche Räume entscheiden sich dafür, sich frei auszudrücken. Farbe tritt in Dialog mit dem Material, überlagert es und gewinnt ganz selbstverständlich an Präsenz. So entstehen lebendige Atmosphären, in denen Gestalten auch bedeutet, etwas zu wagen.

Unexpected affinities

Different materials, textures and tones can come together in a coherent composition. Light reveals connections between them, turning an unexpected combination into a form of expression.

Afinidades inesperadas

Materiales, texturas y tonos distintos pueden construir una composición coherente. La luz descubre vínculos entre ellos y convierte una combinación inesperada en una forma de expresión.

Affinités inattendues

Différents matériaux, textures et tonalités peuvent composer un ensemble cohérent. La lumière révèle les liens qui les unissent et transforme une combinaison inattendue en une forme d'expression.

Unerwartete Verbindungen

Unterschiedliche Materialien, Texturen und Farbtöne können eine harmonische Komposition bilden. Das Licht offenbart ihre Verbindungen und verwandelt eine unerwartete Kombination in eine Form des Ausdrucks.

Chromatic depth

Colour does not always need to dominate. Light, texture and spatial depth enhance its presence, transforming the atmosphere with subtlety.

Profundidad cromática

El color no siempre necesita imponerse. La luz, la textura y la profundidad del espacio intensifican su presencia y transforman la atmósfera de forma contenida.

Profondeur chromatique

La couleur n'a pas toujours besoin de s'imposer. La lumière, la texture et la profondeur de l'espace intensifient sa présence et transforment l'atmosphère avec subtilité.

Farbliche Tiefe

Farbe muss sich nicht immer in den Vordergrund drängen. Licht, Textur und räumliche Tiefe verstärken ihre Präsenz und verändern die Atmosphäre auf zurückhaltende Weise.

Balance in tension

When bold tones interact with a mineral base, contrast becomes balance. Proportion, material and light integrate colour into the architecture, giving it an active role.

Equilibrio en tensión

Cuando tonos firmes dialogan con una base mineral, el contraste se convierte en equilibrio. La proporción, la materia y la luz integran el color en la arquitectura y le otorgan un papel activo.

Équilibre en tension

Lorsque des tonalités affirmées dialoguent avec une base minérale, le contraste devient équilibre. Les proportions, la matière et la lumière intègrent la couleur à l'architecture et lui confèrent un rôle actif.

Balance im Spannungsfeld

Wenn markante Farbtöne auf eine mineralische Basis treffen, wird Kontrast zu Balance. Proportion, Materialität und Licht integrieren die Farbe in die Architektur und verleihen ihr eine aktive Rolle.

AXIS

Colour as an axis

Axis places colour at the heart of the design as an element capable of organising, connecting and transforming material. At the centre of the proposal, Sicily reinterprets stone in four shades — Brown, Green, Ivory and Pink — that interact with natural surfaces to create affinities, continuity and contrast.

A way of translating the Rainwow philosophy into the product: colour is no longer an addition, but becomes a design tool and an essential part of the design.

El color como eje

Axis sitúa el color como un elemento capaz de ordenar, conectar y transformar la materia. En el centro de la propuesta, Sicily reinterpreta la piedra en cuatro tonalidades —Brown, Green, Ivory y Pink— que dialogan con superficies naturales para crear afinidades, continuidades y contrastes.

Una forma de trasladar la filosofía Rainwow al producto: el color deja de ser un añadido para convertirse en una herramienta de proyecto y en parte esencial del diseño.

Au centre de la proposition, Sicily réinterprète la pierre en quatre tonalités — Brown, Green, Ivory et Pink — qui dialoguent avec des surfaces naturelles pour créer des affinités, des continuités et des contrastes.

Une manière de transposer la philosophie Rainwow au produit : la couleur n’est plus un ajout, mais devient un outil de conception et une composante essentielle du design.

Farbe als Achse

Axis stellt Farbe in den Mittelpunkt der Gestaltung – als Element, das Material ordnen, verbinden und transformieren kann. Im Zentrum des Konzepts interpretiert Sicily Stein in vier Farbtönen neu – Brown, Green, Ivory und Pink –, die mit natürlichen Oberflächen in Dialog treten und so Verbindungen, Kontinuitäten und Kontraste schaffen.

So wird die Rainwow-Philosophie auf das Produkt übertragen: Farbe ist kein zusätzliches Element mehr, sondern wird zum Gestaltungswerkzeug und zu einem wesentlichen Bestandteil des Designs.

Balance and accent

Sometimes, a touch of colour is all it takes to change the character of a space. A measured presence that brings identity and shows how expression and balance can coexist naturally.

Equilibrio y acento

A veces basta una nota de color para cambiar el carácter de un espacio. Una presencia medida que aporta identidad y demuestra que expresividad y equilibrio pueden convivir con naturalidad.

Équilibre et accent

Parfois, une simple touche de couleur suffit à changer le caractère d'un espace. Une présence mesurée qui apporte de l'identité et montre qu'expressivité et équilibre peuvent coexister naturellement.

Balance und Akzent

Colour through proximity

Colour can also speak softly. Closely related tones, light and material create an enveloping atmosphere whose richness comes from nuances, transitions and affinities.

Color por aproximación

El color también puede expresarse en voz baja. Tonos próximos, luz y materia construyen una atmósfera envolvente cuya riqueza nace de los matices, las transiciones y las afinidades.

Beyond neutral

Natural-inspired materials take on a new dimension when colour is introduced. The space gains warmth, depth and personality without losing coherence or serenity.

Más allá del neutro

Los materiales de inspiración natural adquieren una nueva dimensión al incorporar el color. El espacio gana calidez, profundidad y personalidad sin perder coherencia ni serenidad.

Au-delà du neutre

Les matériaux d'inspiration naturelle prennent une nouvelle dimension avec l'introduction de la couleur. L'espace gagne en chaleur, en profondeur et en personnalité, sans perdre en cohérence ni en sérénité.

Jenseits neutraler Töne

Von der Natur inspirierte Materialien gewinnen durch den Einsatz von Farbe eine neue Dimension. Der Raum erhält mehr Wärme, Tiefe und Persönlichkeit, ohne dabei an Kohärenz oder Ruhe zu verlieren.

Calm in green

Green does not need to fill the entire space to define its atmosphere. In dialogue with mineral and luminous tones, it brings serenity, a connection with nature and identity.

Calma en verde

El verde no necesita ocupar todo el espacio para definir su atmósfera. En diálogo con tonos minerales y luminosos, aporta serenidad, conexión con la naturaleza e identidad.

Calme en vert

Le vert n'a pas besoin d'occuper tout l'espace pour en définir l'atmosphère. En dialogue avec des tonalités minérales et lumineuses, il apporte sérénité, connexion avec la nature et identité.

Ruhe in Grün

Grün muss nicht den gesamten Raum einnehmen, um seine Atmosphäre zu prägen. Im Dialog mit mineralischen und hellen Farbtönen vermittelt es Ruhe, Verbundenheit mit der Natur und Identität.

Geology of colour

Lithos draws on one of architecture's essential materials to explore new chromatic possibilities. In its compositions, neutral stones bring continuity and serenity, while marbles with more expressive colouring introduce accents and personality. Far from functioning as opposing languages, the two balance each other and broaden the possibilities of the collection.

An interpretation of Rainwow through the world of stone, where material and colour interact at different levels of intensity, from affinity to contrast.

Geología del color

Lithos parte de uno de los materiales esenciales de la arquitectura para explorar nuevas posibilidades cromáticas. En sus composiciones, las piedras neutras aportan continuidad y serenidad, mientras los mármoles de cromatismo más expresivo introducen acentos y personalidad. Lejos de funcionar como lenguajes opuestos, ambos se equilibran y amplían las posibilidades del conjunto.

Una interpretación de Rainwow desde el universo pétreo, donde materia y color se relacionan con distintos grados de intensidad, desde la afinidad hasta el contraste.

More than opposites

Chromatic extremes do not have to compete. Light and dark tones, serene materials and expressive surfaces can coexist, enrich one another and open up new possibilities for composition.

Más que opuestos

Los extremos cromáticos no tienen por qué competir. Tonos claros y oscuros, materias serenas y superficies expresivas pueden convivir, enriquecerse y abrir nuevas posibilidades de composición.

Plus que des opposés

Les extrêmes chromatiques ne doivent pas nécessairement s'opposer. Tonalités claires et foncées, matières sereines et surfaces expressives peuvent coexister, s'enrichir mutuellement et ouvrir de nouvelles possibilités de composition.

Mehr als Gegensätze

Farbkontraste müssen nicht miteinander konkurrieren. Helle und dunkle Töne, ruhige Materialien und ausdrucksstarke Oberflächen können miteinander harmonieren, sich gegenseitig bereichern und neue Möglichkeiten der Komposition eröffnen.

Inhabiting colour

Colour influences how we perceive and inhabit a space. Warm tones create a sense of closeness, enveloping the space and making it feel more welcoming.

Habitar el color

El color influye en cómo percibimos y habitamos un espacio. Las tonalidades cálidas generan cercanía, envuelven y hacen que el ambiente resulte más acogedor.

Quiet contrast

Deep tones can also be part of serene, balanced spaces. The key lies in how they interact with material, light and other colours to find the right balance between energy and calm.

Contraste tranquilo

Los tonos profundos también pueden formar parte de espacios serenos y equilibrados. La clave está en cómo dialogan con la materia, la luz y otros colores para encontrar el punto justo entre energía y calma.

Contraste apaisé

Les tonalités profondes peuvent également trouver leur place dans des espaces sereins et équilibrés. Tout repose sur leur dialogue avec la matière, la lumière et les autres couleurs, afin de trouver le juste équilibre entre énergie et calme.

Ruhiger Kontrast

Auch tiefe Farbtöne können Teil ruhiger und ausgewogener Räume sein. Entscheidend ist ihr Zusammenspiel mit Material, Licht und anderen Farben, um die richtige Balance zwischen Energie und Ruhe zu finden.

Lagomar

Lagomar is conceived as a travel diary: signs, symbols and traces settle onto the ceramic surface, transforming it into an essential visual narrative. Inspired by the landscapes of southern Spain and its islands, the collection brings together nature and architecture through primary forms and archetypal geometries.

The composition develops as a layering of elements — incisions, symbols and fragments — where order and spontaneity coexist. Warm earthy tones are punctuated by brighter accents that add rhythm and depth.

Lagomar se concibe como un diario de viaje: signos, símbolos y huellas se depositan sobre la superficie cerámica, transformándola en una narrativa visual esencial. Inspirada en los paisajes del sur de España y sus islas, la colección reúne naturaleza y arquitectura a través de formas primarias y geometrías arquetípicas.

La composición se desarrolla como una superposición de elementos —incisiones, símbolos y fragmentos— donde conviven el orden y la espontaneidad. Los tonos cálidos y terrosos se combinan con acentos más luminosos que aportan ritmo y profundidad.

Lagomar est conçu comme un carnet de voyage : signes, symboles et traces se déposent sur la surface céramique et la transforment en un récit visuel essentiel. Inspirée par les paysages du sud de l'Espagne et de ses îles, la collection réunit nature et architecture à travers des formes primaires et des géométries archétypales.

La composition se développe par superposition d'éléments — incisions, symboles et fragments — où ordre et spontanéité coexistent. Les tonalités chaudes et terreuses sont ponctuées d'accents plus lumineux qui apportent rythme et profondeur.

Lagomar ist als Reisetagebuch konzipiert: Zeichen, Symbole und Spuren legen sich auf die keramische Oberfläche und verwandeln sie in eine essenzielle visuelle Erzählung. Inspiriert von den Landschaften Südspaniens und seiner Inseln, verbindet die Kollektion Natur und Architektur durch elementare Formen und archetypische Geometrien.

Die Komposition entwickelt sich aus der Überlagerung verschiedener Elemente — Einschnitte, Symbole und Fragmente —, in der Ordnung und Spontaneität nebeneinander bestehen. Warme, erdige Farbtöne werden durch leuchtendere Akzente ergänzt, die Rhythmus und Tiefe erzeugen.

Terranera

Terranera translates nature into an abstract, essential and instinctive language. Against a deep, dark background evocative of volcanic earth, irregular forms and fields of colour emerge like mineral and organic presences.

The composition alternates compact shapes with gestural marks, creating a balance between density and openness, materiality and movement.

The elements seem to emerge from the earth like fragments of a natural landscape — irregular, layered and constantly evolving.

Terranera traduce la naturaleza a un lenguaje abstracto, esencial e instintivo. Sobre un fondo oscuro y profundo que evoca la tierra volcánica, emergen formas irregulares y campos de color como presencias minerales y orgánicas.

La composición alterna formas compactas con trazos gestuales, creando un equilibrio entre densidad y apertura, materia y movimiento.

Los elementos parecen surgir de la tierra como fragmentos de un paisaje natural: irregulares, superpuestos y en constante evolución.

Terranera traduit la nature dans un langage abstrait, essentiel et instinctif. Sur un fond sombre et profond évoquant la terre volcanique, des formes irrégulières et des champs de couleur émergent comme des présences minérales et organiques.

La composition alterne formes compactes et gestes graphiques, créant un équilibre entre densité et ouverture, matérialité et mouvement.

Les éléments semblent émerger de la terre comme des fragments d'un paysage naturel : irréguliers, superposés et en constante évolution.

Terranera übersetzt die Natur in eine abstrakte, essenzielle und intuitive Sprache. Vor einem tiefen, dunklen Hintergrund, der an vulkanische Erde erinnert, treten unregelmäßige Formen und Farbfelder wie mineralische und organische Erscheinungen hervor.

Die Komposition wechselt zwischen kompakten Formen und gestischen Spuren und schafft so ein Gleichgewicht zwischen Dichte und Offenheit, Materialität und Bewegung.

Die Elemente scheinen wie Fragmente einer natürlichen Landschaft aus der Erde hervorzutreten – unregelmäßig, vielschichtig und in ständiger Entwicklung.

Montaña Roja

Montaña Roja interprets the landscape as a metaphysical construction, where architectural elements and natural forms coexist in a suspended balance.

Arches, geometric volumes and organic profiles create a scene composed of essential archetypes, where architecture seems to emerge from the earth and nature takes on an almost designed order.

Between water and land, the composition evokes a primordial, sculptural landscape in which architecture and nature merge, becoming part of the same visual language.

Montaña Roja interpreta el paisaje como una construcción metafísica, donde elementos arquitectónicos y formas naturales conviven en un equilibrio suspendido.

Arcos, volúmenes geométricos y perfiles orgánicos crean una escena compuesta por arquetipos esenciales, donde la arquitectura parece emerger de la tierra y la naturaleza adquiere un orden casi diseñado.

Entre el agua y la tierra, la composición evoca un paisaje primordial y escultórico en el que arquitectura y naturaleza se fusionan, formando parte de un mismo lenguaje visual.

Montaña Roja interprète le paysage comme une construction métaphysique, où éléments architecturaux et formes naturelles coexistent dans un équilibre suspendu.

Arches, volumes géométriques et profils organiques composent une scène faite d'archétypes essentiels, où l'architecture semble émerger de la terre et où la nature adopte un ordre presque conçu.

Entre eau et terre, la composition évoque un paysage primordial et sculptural dans lequel architecture et nature fusionnent pour faire partie d'un même langage visuel.

Montaña Roja interpretiert die Landschaft als metaphysische Konstruktion, in der architektonische Elemente und natürliche Formen in einem schwebenden Gleichgewicht koexistieren.

Bögen, geometrische Volumen und organische Konturen schaffen eine Szenerie aus essenziellen Archetypen, in der die Architektur aus der Erde hervorzutreten scheint und die Natur eine beinahe gestaltete Ordnung annimmt.

Zwischen Wasser und Land erinnert die Komposition an eine ursprüngliche, skulpturale Landschaft, in der Architektur und Natur miteinander verschmelzen und Teil derselben visuellen Sprache werden.
